Computing Services

Computing Services maintains several large general purpose labs and a number of discipline-specific labs on both the St. Paul and Minneapolis campuses; smaller general purpose labs are located in each of the residence halls. Students who live on campus are provided high-speed Internet access through either data ports or wirelessly in their room. Each member of the St. Kate’s community, including students, faculty, and staff, are provided with an account that gives them secure access to campus computing resources. This includes an e-mail account using our Google Apps for Education that is available via a web browser, access to our Course Management System, and access to the popular Kateway web portal where community members may securely access the information they need to be successful at St. Kate’s.

Computing Services also provides training and help desk support for students, faculty, and staff on academic and administrative computing issues; this includes assistance with the Microsoft Office suite, Email and other Google Apps for Education services, and the our Course Management System as well as hardware issues. The help desk can be reached at 651-690-6402 or by email helpdesk@stkate.edu or by visiting the web page: https://www.stkate.edu/academics/institutes-and-centers/mcglynn-center or by chat, social media (like, flicker, facebook, twitter, etc.).

The main office for the McGlynn Center for Computing and Technology is located in the Coeur de Catherine Building on the St. Paul campus.
