

DUAL DEGREE PROGRAMS

St. Catherine's students may earn dual bachelor's and graduate degrees in professional areas. Dual degree programs are available in holistic health studies, occupational therapy, physical therapy, and public health at St. Catherine University. Students enter the graduate program as undergraduate students in their senior year and complete the undergraduate degree while simultaneously making progress toward the graduate degree. After one year in the advanced program, a St. Catherine's bachelor's degree is awarded, and after one or two additional years, an advanced degree is conferred by St. Catherine University. Admission to St. Catherine University and completion of the prerequisite courses does not guarantee admission to the graduate program.
