

BSN-MSN: BUSINESS MANAGEMENT

Advance your nursing career and cultivate your leadership potential with the Master of Science in Nursing (MSN) program at St. Catherine University, offering a unique specialization in Nursing Business Management. This program provides a powerful combination of advanced nursing knowledge and essential business acumen, equipping you to lead and influence within a variety of healthcare and organizational settings.

Building upon St. Catherine's enduring qualities of educational excellence, social justice, and community engagement, this comprehensive program integrates the core principles of a Master of Business Administration (MBA) with a focus on the distinct challenges and opportunities within the nursing profession. Our collaborative learning environment emphasizes teamwork and mutual success, providing a supportive space to develop and test business strategies relevant to your professional goals. The curriculum is centered on delivering immediately applicable, practical knowledge. Through a dynamic blend of creative projects, rigorous analytical work, in-depth case studies, insights from guest speakers, and impactful presentations, you will develop the skills necessary to become an effective and confident leader in diverse organizations. Graduates will be prepared to excel in roles across corporate learning, government agencies, nonprofit organizations, higher education institutions, clinical education departments, and other sectors that prioritize data-informed decision-making and strategic leadership.

Certification Opportunity:

Graduates who complete the designated elective option may be eligible to pursue the Nursing Professional Development Certification (NCP-BC) exam, further enhancing their professional credentials.
