Application for a Degree or Certificate

When students are prepared to complete degree or certificate requirements, they must file the online Graduation Application form by the published deadline as noted below:

- May 15 for December completion
- November 30 for May completion

Students who are pursuing a degree and a certificate simultaneously file the form when they have completed the requirements for both.

Upon receipt of the form, the registrar will verify the student's eligibility for graduation and include the student as a candidate for graduation in the May commencement program.
